

# SNEHABHAVAN

(HOME OF LOVE) GANDHINAGAR, KOTTAYAM-686 008

Approximately 15-20 per cent of any given population around the world are born with or suffer due to some form of disabilities. Irrespective of Constitutional guarantees, political promises and talks in India, on the ground level the persons with disability face stigma, discrimination and neglect. Snehabhavan is working, in the field of Disability for the last 32 years. Please visit: [www.snhabhavanktm.org](http://www.snhabhavanktm.org)

## Annual Fund Campaign Appeal

You are a Giant of our Society!!!

Sitting at my window, every morning, I could see the paddy fields behind our school. Few more students, like me, are in my class. Everyone love to look out through the window when we can. Often, I am reminded of my inability to walk, to enjoy normal things in life. I am physically challenged like my other brothers and sisters in the class. Then some of us are mentally challenged also. Some time I wonder, if, we are children of a lesser God.

Here I am making this appeal to you for funds because you are a Giant of our society. Healthy with great families, bold and successful. God has provided you with everything. Have you ever thought of us for a moment?

Us who are physically and mentally challenged children and many other disabilities living in the shadows of our society with and without help.

Will you be generous to donate a Rupee to improve our lives? I am sure you will. Your generosity will always reward you. God is in heaven bless those who help us always.

## Our immediate focus

The main aim of Snehabhavan is to identify and focus on an early intervention in the lives of those differently abled children and their families living in our service area. At present, Snehabhavan offer its Disability services in Kottayam Municipal area and three other Panchayats namely Aymanam, Arpookkara, and Kanakari in Kottayam District, Kerala.
